Let's try a new vision

Digital controller

Features:

- External trigger mode has three types: Continuous, Switched, Strobe with trigger delay time <50us.
- High frequency 80K HZ, pulse width adjustable by manual operation from 0.1ms-999ms in steps of 0.1ms
- RS232 communication port with PC for remote control..

Model	NTC-E1024DF-M2
Power supply	DC24V
Max.output current of each channel	1A (up to 3A Pulsed)
Max.output voltage of each channel	24V
Channels	2
Intensity levels	0~255
External trigger mode	Continuous, Switched, Strobe
External trigger voltage	5V~24V
Trigger delay time	<50us
Internal output pulse-width	0.1ms~999.9ms, in steps of 0.1ms
Communication port	RS-232, Network serial port
Baud rate and data format	9600/data bit, 8/stop bit, 1/no parity
Operating environment	Temperature 0~40℃/Humidity 25%~85%
Dimensions(mm)	128mm*97mm*63mm
Installation mode	DIN Rail
Weight	310g
